*helping the most vulnerable patients
have a better chance at healing*

Forward-Looking Statements and Non-GAAP Financial Information

Certain statements included in this presentation may be considered forward-looking statements. These forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “plan”, “estimate”, “expect”, “intend” and statements that an event or result “may”, “will”, “should”, “could”, or “might” occur or be achieved and other similar expressions. More specifically, this presentation contains forward-looking statements which include, but are not limited to statements regarding: the Company’s corporate strategy and strategic objectives; the availability of external financing to fund the Company’s ongoing liabilities and commitments; the direct and indirect impact of the COVID-19 pandemic on the Company’s business and operations, including supply chain, manufacturing, research and development costs, contracted service providers and employees, and general business and economic events. These forward-looking statements involve risk and uncertainties, including the impact on the Company given its current liquidity situation, the difficulty in predicting product approvals, acceptance of and demands for new products, the impact of the products and pricing strategies of competitors, delays in developing and launching new products, the regulatory environment, fluctuations in operating results, and other risks, any of which could cause results, performance, or achievements to differ materially from the results discussed or implied in the forward-looking statements. Such forward-looking statements should not be taken as guarantees of future performance of Covalon.

All forward-looking statements are based on Covalon’s current beliefs as well as assumptions made by and information currently available to Covalon and relate to, among other things, anticipated financial performance, business prospects, partnership opportunities, strategies, regulatory developments, market acceptance and future commitments. The reader is cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation.

Due to risks and uncertainties, including the risks and uncertainties identified by Covalon in its public securities filings, actual events may differ materially from current expectations. Covalon disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Certain financial measures in this presentation – namely earnings before interest, depreciation and amortization (“EBITDA”), adjusted EBITDA, pro-forma EBITDA, free cash flow and enterprise value – are non-IFRS financial measures. While Covalon and certain of its competitors measure and evaluate the performance of their respective consolidated operations and business segments with reference to these and similar measures, non-IFRS measures do not have any standardized or prescribed meaning under IFRS or otherwise and therefore are unlikely to be comparable to similar measures presented by other companies. These non-IFRS measures should not be considered in isolation or as a substitute for financial measures prepared in accordance with IFRS. All non-IFRS measures are included because management monitors and uses the information on a regular basis to analyze the performance of the business and therefore may be considered useful information.

For further information about the risks and uncertainties relating to forward-looking statements included in this Memorandum, the recipient should consult the “Risks and Uncertainties” section of Covalon’s annual MD&A dated January 25, 2023, as well as those contained in Covalon’s interim MD&As and other public record filings on SEDAR.

All figures are in Canadian dollars, unless otherwise noted, and Covalon’s fiscal year end is September 30th.

2023 Revenue Breakdown

69%

United States

31%

International

Quarterly Revenue Growth Last 5 Quarters

Key Takeaways

- Strong revenue growth over the past 5 quarters
- Forecasting revenue growth for 2023
- United States revenue growth tracking to plan
- Middle East revenue continuing to return to expected levels, but still “lumpy” quarter to quarter
- Rest of World “lumpy” growth quarter to quarter
- Gross margins anticipated to improve in 2023 compared to prior years

58% YTD 2023 Adjusted Gross Margin¹

¹Adjusted for inventory provisions and other adjustments.

Second Quarter 2023 Financial Results – Key Highlights

- Revenue year to date was \$13.4 million, compared to \$8.2 million in the prior year
- Revenue was \$7.2 million for the quarter, compared to \$3.3 million in the prior year
- Gross margin was \$4.2 million or 58%, an improvement over last year's \$1.7 million or 53%
- Covalon ended the period with \$11 million of cash on the balance sheet
- Second quarter net loss of \$0.7 million or \$0.02 per share and Adjusted EBITDA loss of \$0.5 million compares to net loss of \$2.5 Million or \$0.09 per share and adjusted EBITDA loss of \$2.2 Million in the prior period

Revenue 6 Months

\$13.4M  +63%

Revenue 3 Months

\$7.2M  +120%

Gross Margin 3 Months

58%  +5%

Cash

\$11M (\$0.43 per share)

Net loss 3 Months

\$0.7M  +72%

Basic & Diluted EPS 3 Months
(\$0.03) per share

Results are for the three and six months ended March 31, 2023 and 2022.

Continuing operations includes revenue from our core business of collagen, medical coatings, and antimicrobial silicone adhesive dressings, which continues to experience growth in the United States and internationally.

Discontinued operations are comprised of AquaGuard operations for the periods.

Balance Sheet Consistent with Significant Cash and No Debt

	Sept. 30, 2022	Dec. 31, 2022
Cash	\$14.1M	\$10.8M
Current Assets	\$27.2M	\$24.6M
Total Assets	\$30.4M	\$27.9M
Debt	\$----	\$----
Current Liabilities	(\$4.5M)	(\$4.5M)
Total Liabilities	(\$6.1M)	(\$5.8M)

Key Takeaways

- We ended Q2 2023 with \$11M cash on the balance sheet
- Current assets consists of cash, accounts receivable, inventories and prepaid expenses
- Current liabilities consist of trade payables, accruals, current lease liabilities and deferred revenue
- No debt, strong working capital position

Q2 2023 Revenue

- Product revenue increased 105% to \$6.1 million, compared to \$3.0 million for the same period in the prior year.
- Development and consulting services revenue for Q2 2022 increased by 375% to \$1.1 million, compared to \$0.2 million for the same period of the prior year.
- Revenue from development and consulting services varies based on opportunities and the length of the sales cycle for given projects.
- The timing of this revenue will vary depending on length and timing of projects and discussions with customers.

Q2 2023 Revenue by Geography

- United States accounts for 74% of revenue
- Q2 Revenue in the United States increased by 119% to \$5.4 million, primarily as a result of increased collagen sales and development services.
- International revenue was up 122% to \$1.8 million. Revenue increased in the Middle East as a result of deliveries under competitive contracts awarded to the Company.
- Revenue growth in the United States continues to be a focus for the Company in both our direct sales to hospitals and through our distributor partners into long-term and home health care settings

Q2 2023 Gross Profit and Adjusted Gross Margin⁽¹⁾

- Gross margin for the period ended March 31, 2023, was 58% compared to 53% for the same period of the prior year.
- The gross margin is significantly influenced by source of revenue, recording of inventory provisions and by the relative mix of products sold in any given financial period.
- Adjusted gross margin⁽¹⁾, which excludes inventory provisions and depreciation, was 56% for Q2 fiscal 2023, in line with last year's 56% adjusted gross margin.

(1) See "Non-IFRS Measures" in the MD&A, including for a reconciliation of the non-IFRS measures used in this presentation to the most comparable IFRS measures

Q2 2023 Operating Expenses and Net Income

- Operational expenses increased 17% to \$4.9 million compared to \$4.2 million for the prior year, due mostly to increased headcount in sales and marketing as the Company continues to invest in growing its direct sales and marketing team in the United States
- Net loss was \$0.7 million compared to a net loss of \$2.5 million last year
- Adjusted EBITDA loss was \$0.5 million compared to a loss of \$2.2 million last year
